Kort præsentation

Jeg er i min forskning optaget af at se på fødevaresystemer ud fra et holistisk og tværfagligt perspektiv. Jeg arbejder med offentlige og private madsystemer, og innovation i fødevarekæden. jeg interesserer mig især for hvordan de nuværende fødevaresystemer kan omstilles og transformeres, og hvilke barrierer der er for at ændre de nuværende strukturerer. Jeg anvender oftest kvalitative metoder og i en socio-teknisk orienteret teoriramme. Jeg er desuden optaget af at samtænke og udvikle forskning og undervisning i min rolle som Viceinstitutleder for Undervisning (VILU) på IFRO.

Kort præsentation

Ikke repræsenteret i råd der kan give anledning til interessekonflikter.

Positions

2018: Associate Professor at Copenhagen University, Dept. of Food and Resource economics
2013-2018 :Associate Professor at AAU Copenhagen, Dept. of Planning
2009-2013:Assistant Professor at AAU Copenhagen, Dept. of Planning
2004-2009:Ph.D. student at Technical University of Denmark, Dept. of Management
2000-2004:Research Assistant at Technical University of Denmark, Dept. og Management
1999-2000:Research Assistant at Aarhus University, ICROFS secretariat
